

Speicherplatz

Übersicht:

```
df -h
du -sh /pfad/*
du -h --max-depth=1 /
```

Größte Dateien finden:

```
find / -type f -size +100M 2>/dev/null
du -ah / 2>/dev/null | sort -rh | head -20
```

Speicher freigeben:

```
# APT-Cache
apt clean
apt autoclean

# Alte Logs
journalctl --vacuum-time=7d
journalctl --vacuum-size=100M

# Temp-Dateien
rm -rf /tmp/*
```
